

CAMERON GREAT LAKES, INC.

MOLECULAR FILTRATION SPECIALISTS

REFILLABLE MEDIA TRAYS

Cameron Great Lakes offers carbon trays in both standard and custom sizes. The panels are designed for the easy removal of carbon media.

A variety of construction materials are available. Typical is cold rolled steel with a baked enamel finish or C.R.S. tin plated. Epoxy coated and stainless steel trays are also available.

CGL inventories a large quantity of both new and used trays, offering quick service to the end user.

TRAY SERVICE

CGL offers service of used carbon trays. Trays can be shipped to our facility for emptying and re-filling, then shipped directly back to your customer.

For those customers where system down time is critical, filters may be “advanced” for quick change-out. Using our “Tray Advance” program CGL fills the required quantity and size of trays and ships them to the site for installation. Upon installation the used trays are then returned to CGL.
